Institute

**Medical area:**

Implantology

**Level:**

All

**Modality:**

Face-to-face

**Time:**

From 9:30 to 19:00 h

**Price:**

550 €

*Includes two hotel nights,  
one dinner, one lunch and coffee*

**Account number:**

ES63 0030 3482 46 0000784271

*Indicating name and surname  
of the registered person.*

**Place:**

Eduardo Anitua Institute  
Calle Jacinto Quincoces 39  
01007 Vitoria-Gasteiz

## Monographic course on narrow implants

**31<sup>th</sup> MAY 2024**

The atrophic maxilla is still a common challenge in dental clinics. Although there are different approaches to rehabilitate these patients, the development and improvements in narrow implants have made it possible to solve complex cases in a simpler way, with less morbidity and risks for the patient. But above all, one of the great advantages of the use of narrow implants is their high predictability.

This course focuses on showing the indications, remembering the key aspects in the planning, and describing step by step the technique of placing narrow implants. During the course we will review the indications for immediate loading and show you several real cases solved, from which important conclusions can be drawn.

Monographic course  
on narrow implants

31<sup>ST</sup> MAY

## Program

09:30 Presentation

09:45 Narrow Implants:

Update and State of the Art.

11:30 Coffee break

12:00 Clinical aspects of the use of  
narrow implants:

- Indications for narrow implants
- Surgical Protocol
- Prosthetic protocol

- Clinical cases

14:00 Lunch

16:00 Workshop on placement of narrow  
implants (on models).

18:00 Lecture by Dr. Eduardo Anitua.

## Lecturer

**Dr. Eduardo Anitua**

*MD · DDS · PhD*

**Dra. Aintzane Torre**

*Oral and Maxillofacial Surgeon*

**Dr. Asier Eguia**

*DDS · PhD*
